

JELENA SUVAJAC

GRAPHIC DESIGNER | UX/UI DESIGNER

I'm Jelena Suvajac, a junior Graphic designer with several years of experience in the industry. I'm passionate about creating designs that not only look great but also help businesses achieve their goals.

When it comes to design, I believe in the power of balance. I aim to combine aesthetics with functionality to create designs that are both visually appealing and effective. Whether it's a logo, website, or marketing materials, my goal is to find that perfect balance. I have a strong foundation in design principles, and software such as Adobe Photoshop, Illustrator, Adobe XD, and InDesign and I am eager to apply my knowledge and continue to learn and develop my skills.
